DETECTIVE BUREAU

Instructions

Need stabilizing underlay stitches in the center. See photo for reference.
• I had to add underlay to the center at the beginning of the run to avoid stretching/pushing of the fabric due to the complex fill.

**New vector sans-serif text (Vector).**
• I had to move text away from center circle.
• Move "detective" and re-center fill area.

Lower bottom box.
• Please add taller fill between the bottom box and badge (yellow vector).
